

Akash Balodi

Rishikesh, Uttarakhand / akashbalodi17@gmail.com | +91 9058719533

Objective

To get an opportunity that allows me to expand my knowledge, showcase my skills and contribute to the company's growth.

Technical Skills

Languages: C++, HTML, CSS, JavaScript, TypeScript

Frameworks: React.js, Angular, Node.js, Express.js

Databases: MongoDB

Experience

Infosys Springboard, Project Intern

Oct 2024 – Present

- Collaborated with a team to develop the **Right Resource Fit** project, a recruitment management system for HR teams.
- Contributed to both front-end and back-end development using **React, TypeScript, Node.js, Express.js and MongoDB**.
- Focused on building key features, such as user authentication, job postings, and Applicant tracking, which streamlined recruitment tasks.
- Participated in Agile sprints, using Git for version control and regularly reviewing code to ensure quality and consistency across the team.

Projects

ToDoList App

- Developed a dynamic and responsive Todo List application using Angular.
- Implemented key features such as task creation, editing, deletion, and status updates.
- Integrated local storage for persistent task management.

Investment Calculator

- Developed an interactive web-based investment calculator using angular that allows users to input investment details like principle, rate of return, and time period.
- Integrated Angular signals to dynamically update and adjust results as input values changes, ensuring real-time feedback and user-friendly interactivity.
- Ensured responsive design and user-friendly interface for seamless user experience.

News App

- Developed a dynamic news application that provide up-to-date news articles from various sources worldwide.
- Leverages the power of News API to aggregate and fetch real-time news data.
- Tools Used: React.js, Rest Api, Tailwind.

Certificates

- Angular Full Stack development certification from Infosys Springboard 5.0
- Elite Certificate of Cloud Computing By NPTEL
